**LONG-TERM CARE INSURANCE FROM A COMPANY THAT CAN STAND THE TEST OF TIME.** Two things may matter most to your clients as they consider buying long-term care insurance: the strength of the product and the strength of the company behind it. On both fronts MetLife excels. In a recent survey, 95 percent of our LTCI claimants graded their experience as either excellent or very good. As for the strength of MetLife, the company has 140 years of stability, substantial capitalization and over \$1 billion in LTCI claims paid out already.
