TRS-Care VISION

MetLife

You may see better with LASIK services.

Reduce or eliminate the need for glasses or contact lenses.[1]

What is LASIK?

LASIK is a laser vision correction procedure that may reduce or eliminate the need to wear glasses or contact lenses.

Is LASIK right for you?

Are you nearsighted or farsighted, or do you have astigmatism? If so, LASIK may help you regain your vision through a single, FDA-approved procedure. This procedure reshapes the cornea so that light entering your eye is properly focused onto the retina. Vision may be corrected immediately following the LASIK procedure.[1]

MetLife Vision Insurance with the Superior Vision® network provides access to a discount[2] on LASIK services[3] to you and your eligible dependents[4] through the QualSight® network.
