MetLife Pet covers your best friend's health, too.

We know that for pet parents, pets are more than just furry friends—they're part of the family. Caring for a pet is rewarding, but it can also come with financial stress.

The annual cost to care for a pet averages $1,391 for a dog and $1,149 for a cat.[1]

MetLife Pet Insurance can help pet parents save money at every stage of their pet's life with our preventive care coverage (optional) for dogs and cats.

Optional preventive care coverage means you can be reimbursed[2] for a variety of wellness matters, from regular wellness visits to certain medications. Here are some examples of what is commonly covered:

- Vaccinations
- Flea/tick medications
- Wellness visits
- Teeth cleaning
- Deworming
- And more!

Optional Preventive Care coverage can be added for an additional cost when choosing your policy features.
