

ESG – INVESTMENT POLICY

PUBLIC POLICY/STATEMENT

For nearly 150 years, MetLife has been a stable, well-respected provider of financial services products that represent long-term promises to our clients and customers. We help our customers meet their financial needs so that they can live fuller, more secure lives. MetLife's presence in communities around the world runs deep, allowing us to positively impact millions of individuals. Through investments, job creation, benefit payouts, tax payments and other direct and indirect economic activities, MetLife enables local economies to grow, to prosper and to thrive.

Our ability to deliver on policies many years into the future requires that we seek out stable, secure and diverse investments. With this in mind, we invest in assets offering competitive, risk-adjusted returns that help ensure we can honor our financial commitments. In selecting and monitoring these investments, assessing risk is an integral part of our due diligence process. We utilize a vigorous risk management discipline across our investment portfolio and carefully assess the risks presented by each investment, including relevant environmental, social, economic and governance risk.

Please see our Investments Fact Sheet and the MetLife Corporate Social Responsibility report for more information on MetLife's portfolio, including Impact Investments.
