

Around the corner, around the world.

Localized benefits expertise, worldwide

Our global approach starts with a local focus

You've given your employees an exciting opportunity to work abroad. But no two global employees' needs are exactly alike and acclimating to a new culture, language and work environment can be tough even with the right support.

That's why we've developed personalized, localized relationships in markets around the world to make it easy for globally mobile employees to access quality medical care without paying out-of-pocket — no matter where they are.

That means fewer challenges and that employees will feel confident in navigating their new lives abroad.

Our **Regional Service Centers** (RSC)¹ are the local face of our global healthcare network. Our local experts are well versed in the nuances of the medical system where your employees are on assignment and are ready to guide your globally mobile employees through them, so receiving and paying for care is easy.

All RSCs are connected through the Global Service Platform, which keeps the entire team — clients, brokers, evacuation services, and Account Managers — on the same page, with the ability to track and follow the globally mobile experience around the globe.

“I was nervous about healthcare in another country. MetLife really answered all of my questions and took care of me. They processed my claim in such a prompt manner. I feel confident that future care will be handled in the same manner.”

Globally mobile employees can feel confident with our network:

1.1 million direct-pay providers in 180 countries to make sure employees visit the top hospitals in the area

Minimized out-of-pocket expenses for globally mobile employees with global direct-payment arrangements and our online provider directory that delivers provider info in real time

24/7 customer service with access to a high-quality network of medical directors, case managers and nurses

Cost-containment measures with local fee schedules, negotiated network discounts, and physician-led care monitoring

Support from MetLife professionals in more than 40 countries that understand regional regulations, local customs and language barriers

How we support employees abroad

With MetLife, getting quality care for employees anywhere in the world is simple and dependable. Healthcare systems can vary greatly from country to country, so we have local experts who are grounded in that area's healthcare network. They understand how local systems work, and guide employees through a quality care experience with:

Ease of access

One, single ID card — co-branded with the logos of MetLife and the globally mobile employee's assigned Regional Service Center — gives your employees confidence that they'll be covered around the world.

A reputable global network

Your employees are in a new situation in a new country, so we've taken care of all the details to make sure they can get high-quality care easily. We examine provider accreditation and licensing and take into account important aspects, such as the local medical infrastructure, scope of medical and administrative services, languages spoken, as well as safety of surroundings.

A personal touch

For globally mobile employees looking to speak with a medical professional, it's as easy as calling their Regional Service Center. With a global medical team of more than 450 medical professionals, we are ready to provide case management, guidance, and emergency support 24/7.

Simplified provider payments

We have over 185,000 direct-pay providers outside of the U.S., as well as the ability to pay providers directly in nearly 180 countries. Our large direct-pay network means your employees won't pay out-of-pocket. Should the need to file or look up the status of a claim arise, our eBenefits website makes the process simple. Your employees are able to focus on what's important — staying healthy.

How we support employees stateside

Employees are also covered in the United States. Navigating U.S. healthcare is simple with our strong medical network, quality benefit coverage and 24/7 support.

Comprehensive coverage

Globally mobile employees have access to up to one million healthcare providers through some of the largest national healthcare networks in the U.S., including:

- Aetna Open Choice PPO
- Cigna PPO
- PHCS

Always available

Our 24-hour Nurse Hotline gives employees in the U.S. round-the-clock access to a live nurse who can answer any urgent medical questions they may have. Simply call 1-866-375-6877 for reliable medical assistance.

Easy prescription access

Prescriptions are available through CVS Health with access to more than 68,000 retail pharmacies complemented by mail-order services. And if employees are going to countries where their prescription is not available locally, their U.S. provider can prescribe up to a 12-month supply that they can take with them.

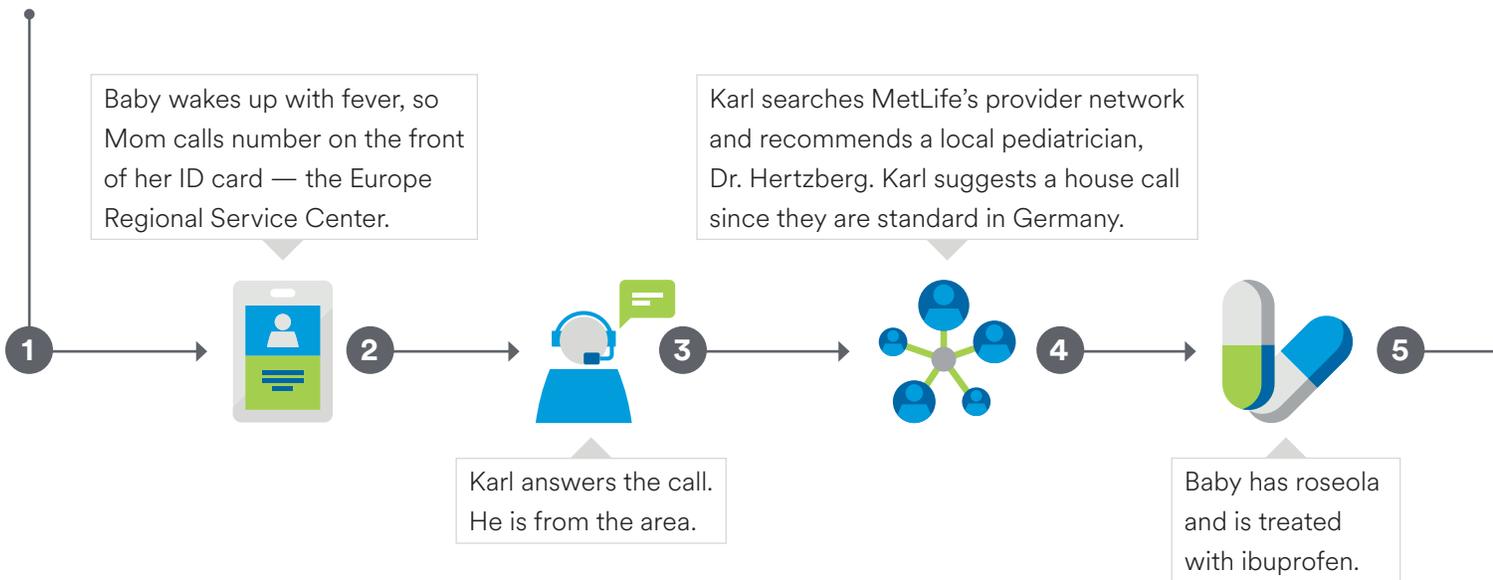

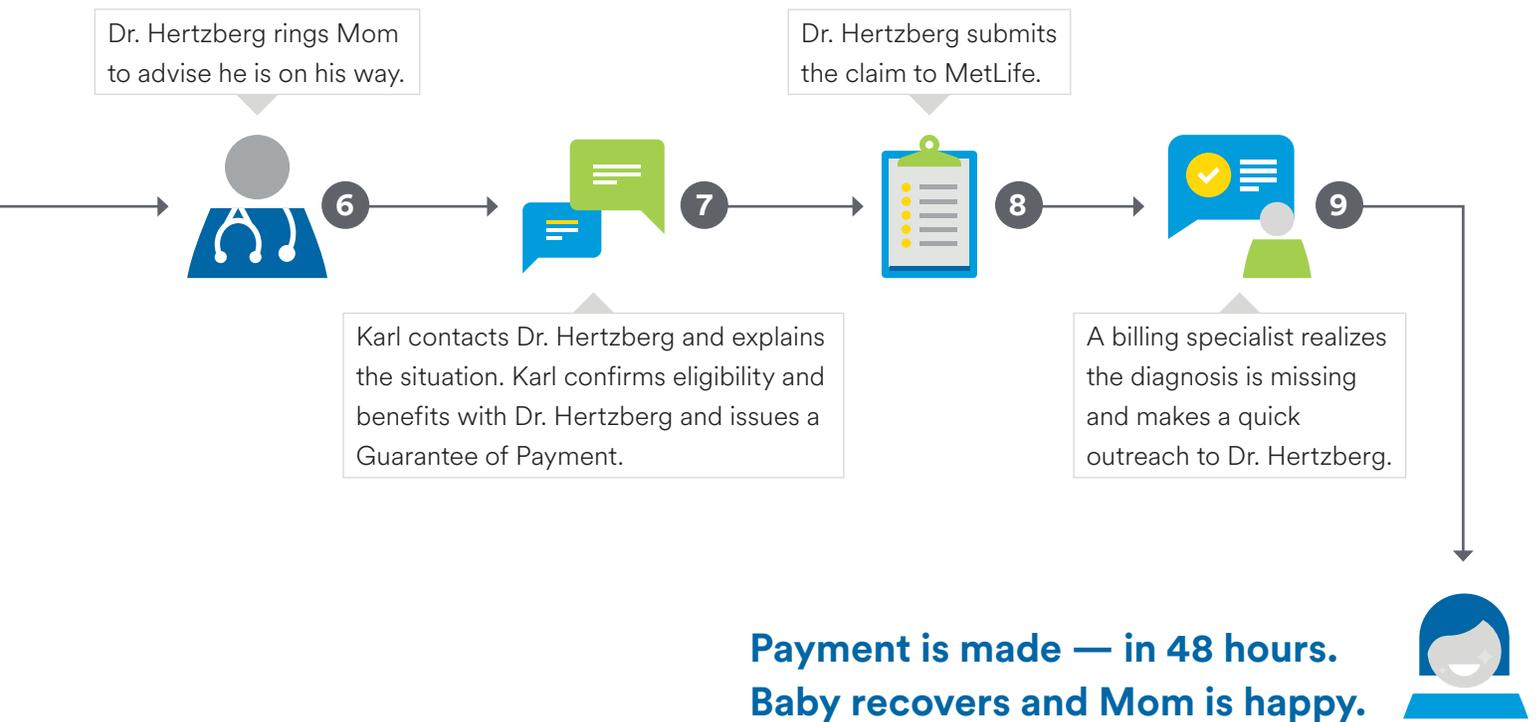

“I’ve been an overseas teacher for 28 years and I’ve not seen such good service anywhere else.”

An example of how the Regional Service Center model improves the globally mobile employee experience

Karen, in Germany, has a baby who wakes up with a fever
